7th FRENCH CONFERENCE ON SOCIAL AND ENVIRONMENTAL ACCOUNTING RESEARCH
(7th CSEAR France Conference)

June 5-6, 2023
Université de Montpellier, Institut Montpellier Management (MoMa)
France

Bienvenue au *septième congrès CSEAR France (2023)*!

We are very pleased to welcome you to the Institut Montpellier Management (MoMa) at the Université de Montpellier for the **7th French CSEAR Conference!**

The main purpose of this conference is to foster social and environmental (SEA) research, specifically here in France, and we are hoping that this congress is a continuation of the great and positive dynamic that started here 12 years ago. The spread of SEA research conferences, workshops and symposia helps not only attract new people in the area, but also expand the boundaries of SEA research across disciplines. It is indeed rather encouraging to see such participation, especially from emerging scholars, for this 7th CSEAR France—this is exactly what we want to see!

In total, we have 69 conference delegates who are based in 13 different countries (Belgium, Cameroon, Canada, France, Germany, Italy, Portugal, Spain, Sweden, Thailand, Turkey, United Kingdom and United States).

The program includes 55 parallel session paper presentations (27 French; 28 English) and a 'dual' (academic & practitioner) keynote presentation.

Last but certainly not least, we would like to **thank** our plenary speakers Nicolas Berland, Professor at Université Paris-Dauphine PSL and Geneviève Ferone Creuzet Cofounder and Associate at Prophil; members of the scientific and organizing committees; authors; congress participants; partners and financial sponsors — MoMa, University of Montpellier, Montpellier Research in Management, Métropole de Montpellier for helping put together another successful French CSEAR conference!

En vous souhaitant à toutes et à tous un excellent congrès,

The 7th CSEAR France Organizing Committee
Sophie Spring, Amel Ben-Rhouma, Charles H. Cho, Delphine Gibassier, Claire Gillet-Monjarret, Jonathan Maurice and Géraldine Rivière-Giordano
